

Track your research impact

Publons Researcher Profiles

Publons is part of

**Web of
Science
Group**

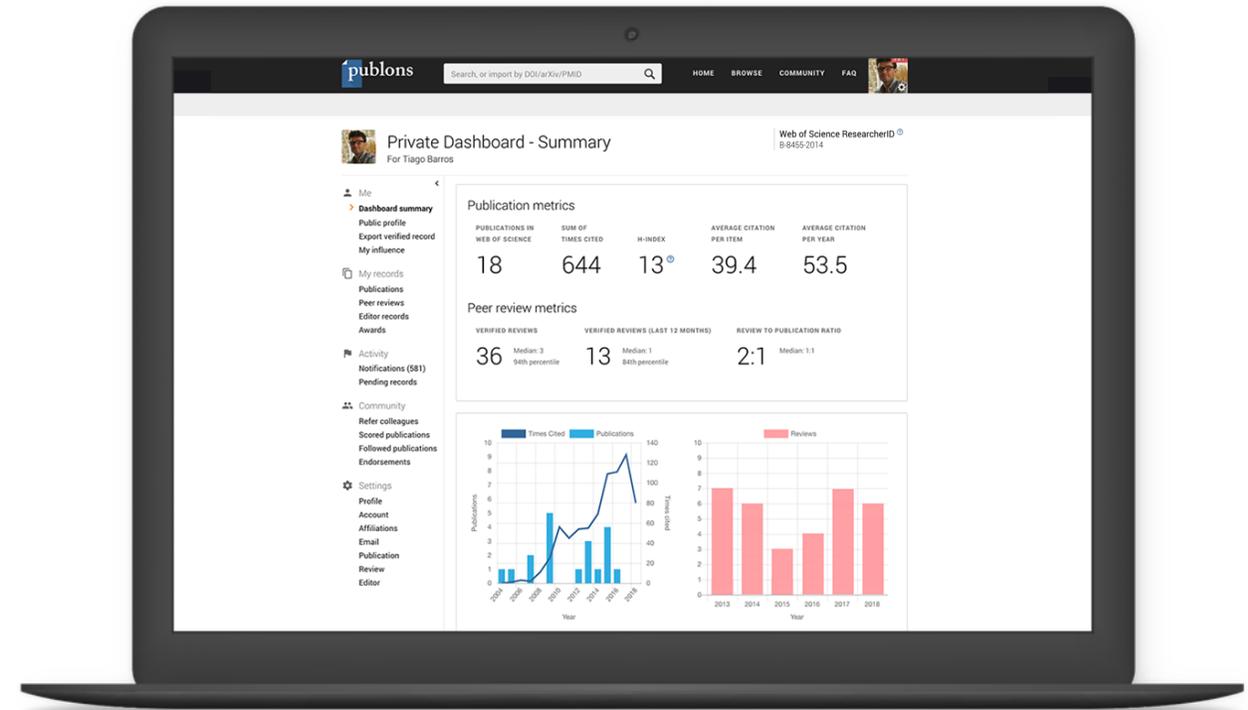

A Clarivate
Analytics
company

Track more of your research impact and own your online researcher identity

Track your publications, citation metrics, peer reviews, and journal editing work in one, easy-to-maintain profile.

- All your publications, instantly imported from Web of Science, ORCID, or your bibliographic reference manager (e.g. EndNote Zotero, or Mendeley)
- Trusted citation metrics, automatically imported from the Web of Science Core Collection
- Manage your publication records in Web of Science
- Your verified peer review and journal editing history, powered by partnerships with thousands of scholarly journals
- Downloadable record summarising your scholarly impact as an author, editor and peer reviewer.

Unified Authentication

A seamless user-experience.

Sign in to Publons, EndNote, and Web of Science (entitlements pending) using the same email and password.

The screenshot displays the Publons website's sign-in page. At the top, the Publons logo is on the left, and a search bar with the text "Search, or import by DOI/arXiv/PMID" is in the center. To the right of the search bar are navigation links: "ACTIONS", "BROWSE", "COMMUNITY", "FAQ", "LOG IN", and a "REGISTER" button. Below the navigation bar, the breadcrumb "Home > Sign in" is visible. A prominent blue banner contains the text: "You can now sign in to Publons, EndNote and Researcher ID with one email address and password." Below this banner, a white box with a blue border contains the sign-in form. The form is titled "Sign in to continue with Publons" and has two columns. The left column contains an "Email address" input field, a "Password" input field, a "Forgot password?" link, and a "Sign in" button. The right column contains a "Not a member yet?" link and a "Register" button. Below the form, there are social login options: "or sign in using" followed by icons for Google, ORCID, and LinkedIn. At the bottom of the form, there is a disclaimer: "By signing in, you acknowledge and agree to our Terms of Use and Privacy Statement." and a link: "Need help? Contact Customer Care."

Modern profile

Simple and intuitive user interface and clear information hierarchy making it easy for you to build, maintain, and navigate profiles.

Summary of key publication and peer review metrics

Navigate to detailed metrics, publication, or peer review and journal editing summaries

Research fields, bio, institutional affiliations, and highly cited and peer review awards

Most cited publications and citation counts

Journals reviewed for and count of verified reviews performed

The screenshot shows a Publons profile for Elisabeth M. Bik. At the top, there are navigation links: HOME, BROWSE, COMMUNITY, FAQ, and a search icon. The profile header includes her name, title (Science Editor - Research, uBiome), ORCID (0000-0001-5477-0324), and a summary of metrics: 24 PUBLICATIONS, 7,194 TOTAL TIMES CITED, 18⁰ H-INDEX, 156 VERIFIED REVIEWS, and 3 HANDLING EDITOR RECORDS. Below this is a navigation menu with options for Summary, Metrics, Publications, and Peer review. The main content area is divided into several sections: Research Fields (MEDICAL BACTERIOLOGY), Bio (a paragraph about her background and work), Institutions (Science Editor - Research, uBiome - Present; Research Associate - Department of Medicine, Stanford University), Affiliations (Editorial Board Member - ISME Journal; Editorial Board Member - Frontiers in Microbiology; Associate Editor - Microbiome Journal), Awards (Top Reviewers for Multidisciplinary - September 2017; Top Reviewers: Immunology and Microbiology - September 2016), Most cited publications (a table with 5 entries), and Peer review summary (a grid of journals reviewed for). A 'GO TO PUBLICATIONS' button is located below the most cited publications section, and a 'GO TO PEER REVIEW' button is at the bottom of the peer review summary section.

Publication Title	Journal	Times Cited
Diversity of the Human Intestinal Microbial Flora	SCIENCE	3629
Development of the Human Infant Intestinal Microbiota	PLOS BIOLOGY	1421
Molecular analysis of the bacterial microbiota in the human stomach	PROCEEDINGS OF THE NATIONAL ACADEMY OF SCIENCES	499
Dissecting biological "dark matter" with single-cell genetic analysis of rare and uncultivated TM7 microbes from the human mouth	PROCEEDINGS OF THE NATIONAL ACADEMY OF SCIENCES	354
Microbial Prevalence, Diversity and Abundance in Amniotic Fluid During Preterm Labor: A Molecular and Culture-Based Investigation	PLOS ONE	353

Easy to add publications to your profile

1. Import publications directly from Web of Science via your Private Dashboard.
1. Import publications from ORCiD, DOI/title search, or by file upload
1. Validate which publications are yours and add them to your profile.

Whenever a publication is added to your profile, we automatically search Web of Science and CrossRef for additional metadata to improve your records and find any missing citations.

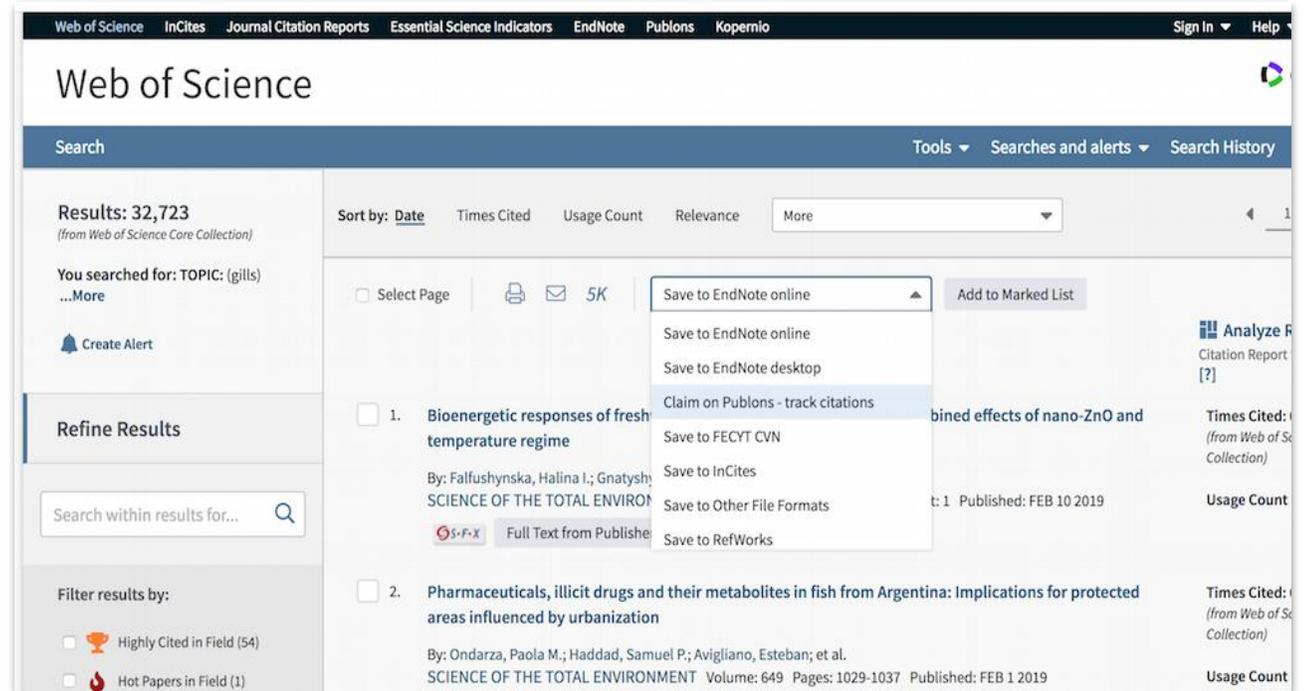

The image displays two screenshots of the Publons Private Dashboard. The left screenshot, titled 'Private Dashboard - Import Publications' for Tiago Barros, shows the 'Import from Web of Science' section with a message: 'We have found 32 publications that match your email address. Results and use the filters to select all your publications index'. Below this are buttons for 'SEE MY WEB OF SCIENCE PUBLICATIONS', 'Import from ORCID', 'Search and import by DOI or title', and 'Import by file upload (RIS, CSV, or BIBTEX)'. The right screenshot, titled 'Private Dashboard - Confirm Publications' for Andrew R. H. Preston, shows a confirmation screen with filters for 'Years Published', 'Institutions', and 'Author Names'. The 'Years Published' filter has 1987, 1988, and 1992 selected. The 'Institutions' filter has 'Boston Univ.' selected. The 'Author Names' filter has 'PRESTON, AR' selected. Below the filters, it says 'Results: Selected 0 of 11 publications' and includes a table of results.

Claim your publications from Web of Science

Claim your publications directly from Web of Science and export to your Publons profile.

Note: If you have a pop-up blocker, you will need to disable this to be able to claim your publications from within Web of Science.

The screenshot displays the Web of Science search results page. The top navigation bar includes links for Web of Science, InCites, Journal Citation Reports, Essential Science Indicators, EndNote, Publons, and Kopernio. The main header shows 'Web of Science' and a search bar. Below the header, the search results are displayed, showing 'Results: 32,723 (from Web of Science Core Collection)'. The search criteria are 'TOPIC: (gills)'. The results are sorted by 'Date'. A context menu is open over the first result, 'Bioenergetic responses of freshwater fish to a changing temperature regime', listing options such as 'Save to EndNote online', 'Save to EndNote desktop', 'Claim on Publons - track citations', 'Save to FECYT CVN', 'Save to InCites', 'Save to Other File Formats', and 'Save to RefWorks'. The second result, 'Pharmaceuticals, illicit drugs and their metabolites in fish from Argentina: Implications for protected areas influenced by urbanization', is also visible. The interface includes a 'Refine Results' section with a search box and filter options for 'Highly Cited in Field (54)' and 'Hot Papers in Field (1)'. The top right corner has 'Sign In' and 'Help' links.

Import citations and *h*-index from Web of Science

Publons automatically calculates your Web of Science Core Collection citation counts and *h*-index for any publications you imported to your profile, regardless of how the publications were added.

Why Web of Science Core Collection citations?

Publons uses the Web of Science Core Collection — 21,000 journals hand-selected and re-evaluated by expert editors — to calculate citation counts and *h*-indexes. This ensures that every citation we count is from an authoritative and robust corpus of publication metadata, with balanced coverage across disciplines and geographies, and vetted by expert editors as meeting the quality standards required to be indexed in the Web of Science Core Collection.

The screenshot shows the Publons profile for Eugene Garfield. The profile includes a photo, name, and affiliation (Institute for Scientific Information). Key statistics are displayed in a table:

PUBLICATIONS	TOTAL TIMES CITED	H-INDEX
1,535	11,617	144

Below the statistics, there is a section for 'Most cited publications' with a table of citation counts:

Publication Title	TIMES CITED
Citation Analysis as a Tool in Journal Evaluation: Journals can be ranked by frequency and impact of citations for science policy studies	1530
Citation Indexes for Science: A New Dimension in Documentation through Association of Ideas	1171
The History and Meaning of the Journal Impact Factor	1068
Journal impact factor: a brief review	426
Is citation analysis a legitimate evaluation tool?	366

Manage your presence in Web of Science

Publons automatically updates Distinct Author Sets in the Web of Science, as well as adding Web of Science ResearcherID identifiers (and links to Publons profiles) to your publication records across Web of Science collections.

Abstract
The similar to 230-residue C-terminal tail of the epidermal growth factor receptor (EGFR) is phosphorylated upon activation. We examined whether this phosphorylation is affected by deletions within the tail and whether the two tails in the asymmetric active EGFR dimer are phosphorylated differently. We monitored autophosphorylation in cells using flow cytometry and found that the first similar to 80 residues of the tail are inhibitory, as demonstrated previously. The entire similar to 80-residue span is important for autoinhibition and needs to be released from both kinases that form the dimer. These results are interpreted in terms of crystal structures of the inactive kinase domain, including two new ones presented here. Deletions in the remaining portion of the tail do not affect autophosphorylation, except for a six-residue segment spanning Tyr 1086 that is critical for activation loop phosphorylation. Phosphorylation of the two tails in the dimer is asymmetric, with the activator tail being phosphorylated somewhat more strongly. Unexpectedly, we found that reconstitution of the transmembrane and cytoplasmic domains of EGFR in vesicles leads to a peculiar phenomenon in which kinase domains appear to be trapped between stacks of lipid bilayers. This artifactual trapping of kinases between membranes enhances an intrinsic functional asymmetry in the two tails in a dimer.

Profile updated with verified review record (No sensitive information is displayed)

Add reviews and editorial records for non-partnered journals

We verify these records behind the scenes and add the records to your profile.

- Email review receipts ('Thank you for reviewing emails) to reviews@publons.com
- Manually enter review details from your private dashboard.

The screenshot shows the Publons website header with the Publons logo and Clarivate Analytics logo. The main heading is "How to find and add old reviews". Below this, there is a paragraph explaining the quickest way to add past reviews: "The quickest way to add past reviews to your profile is to forward 'receipts' for those reviews to reviews@publons.com." A small illustration of a diverse group of people is shown to the right. Below this, another paragraph states: "Review receipts are emails from an editor on receipt of your review, *not* invitations to review." The main content area is titled "Search your inbox for these receipts using the steps below" and contains three numbered steps:

1. Go to your inbox and search these common terms:
"Thank you for reviewing (journal name)"
"Your review for (journal name)"
"Review received (journal name)"
2. Copy and paste the text from any receipts you find into your search box to look for more receipts that use the same terms.
3. Forward each message you find to reviews@publons.com and you're done! We'll verify your reviews with the journal and add them to your profile.

At the bottom of the page, there is a footer note: "Forward your review receipts to us as often as you like. Check our FAQs or email us at info@publons.com for more information."

Display your editorial and peer review history

Editorial board memberships.

Count of verified reviews performed for different journals.

Note: Publons works in full compliance with journal review policies and only reveals information about reviewed manuscripts that is permitted by the publisher and reviewer.

The screenshot displays the Publons profile for Elisabeth M. Bik. The profile includes a navigation bar with 'publons', 'HOME', 'BROWSE', 'COMMUNITY', and 'FAQ'. The user's name and title, 'Science Editor - Research, uBiome', along with their ORCID ID, are shown. A summary table lists key metrics: 24 publications, 7,194 total times cited, an H-index of 18, 156 verified reviews, and 3 handling editor records. The profile is divided into several sections: 'Verified Editorial Board Memberships' (listing Microbiome, The ISME Journal, and Frontiers in Microbiology), 'Editorial records (manuscripts handled as editor)' (listing Microbiome), 'Journals reviewed for' (listing 11 journals including The ISME Journal, Plos One, and Frontiers in Microbiology), and 'Open pre-publication reviews' (listing a review for 'Self-Sampling for HPV Testing').

Import from ORCID ^

Import all the publications on your ORCID record by clicking the button below.

Export your publications to ORCID

You have 32 eligible publications which can be exported to your ORCID record:
 <https://orcid.org/0000-0001-6744-8561>. If you believe you have more publications to export than reported please [get in touch](#).

Click the "Export publications to ORCID" button below to immediately send your publications to your ORCID record. (ORCID groups any duplicate publications together by their identifiers, so you can safely do this even if you already have some of your publications on your ORCID record.)

Export verified reviews to ORCID

You have 15 eligible verified pre-publication reviews which can be exported to your ORCID record:
 <https://orcid.org/>. If you believe you have more reviews to export than reported please [get in touch](#).

If the box below is selected we will export any new reviews every two weeks. You may also trigger export immediately by clicking the button.

Automatically export reviews to ORCID

Verified reviews can be added automatically by partnered journals or by forwarding "thank you for reviewing" emails you've received to reviews@publons.com. [Learn more here](#).
