

# FEES AND CHARGES FOR 2016

[www.ru.ac.za/fees](http://www.ru.ac.za/fees)

In line with national agreements, fees for 2016 will **not** be increased.

There are **two** basic fees (tuition and residence) and some additional lesser fees (e.g. for handouts or special examination costs).

1. Tuition fees for undergraduate degrees range from **R27,000 to R46,930**

*(refer section (B) for the exact fee for your selected degree)*

2. Residence fees range from **R48,100 to R50,500**.

*(refer section (E))*

The payment options that are available follow but please **note carefully the payment due dates if you wish to be accommodated in residence**. Registration will not be permitted if none of the options below have been taken up.

## FOR SOUTH AFRICAN STUDENTS

### Option 1

Pay a Registration Fee (10% of tuition fees and where applicable 10% of residence fees), by **18 January 2016** and the balance of fees by an appropriate payment arrangement.

The Registration Fee:

Tuition only: 10% of the degree fee for the degree for which you are registering eg, for BA 1 the registration fee is R3,720

or

Tuition and Residence: 10% of the degree fee for which you are registering PLUS 10% of the residence fee ; eg, for BA 1 and staying in Ruth First House the registration fee is R3,720 + R5,050 = R8,770

The payment arrangement can be made at the Student Help Desk which will be available at registration, by email ([feescomm@ru.ac.za](mailto:feescomm@ru.ac.za)) or by telephone (046 603 8743).

**OR**

### Option 2

Make a direct deposit or internet transfer of the

full tuition fee and, if applicable the full residence fee, **prior to 18 January**. A 5% discount may be **claimed in writing** if you opt for this option.

**OR**

### Option 3

Arrange payment of the **full fees** by debit order with 11 monthly instalments from 1 February to 1 December. The debit order application form, obtainable from the Student Bureau or the Student Fees Office, must be completed and signed by the person whose bank account is to be debited and returned, together with all other documentation, to the Student Fees Office by **8 January 2016**. This may be done via email: [debitorders@ru.ac.za](mailto:debitorders@ru.ac.za) or fax : 046 603 7019. Incomplete applications will not be considered and the facility must be approved prior to registration.

---

Recipients of Rhodes University financial aid packages (including NSFAS students) are required to pay the Registration Fee stipulated in their agreement, **by 18 January 2016**. This will normally be 10% of the amount due as the student's own contribution towards the fees.

---

## FOR INTERNATIONAL STUDENTS

### Option 1

New and returning international students will be required to pay 50% of their tuition and residence fees for the year, by **18 January 2016**, the balance of fees to be paid by an appropriate payment arrangement.

International Students Registration Fee:

Tuition only R20,000

or

Tuition and residence R45,000

### Option 2

Make a direct deposit or internet transfer of the full tuition fee and, if applicable the full residence fee, **prior to 18 January**. A 5% discount may be **claimed in writing** if you opt for this option.

**Surcharge for International students (compulsory additional charge for all International students)**

**Undergraduates:**

From SADC countries	R 8,100
From Africa (excl. SADC)	R10,350
Elsewhere	R11,700

**Postgraduates:**

From SADC countries	R 5,475
From Africa (excl. SADC)	R 6,825
Elsewhere	R 8,100

---

NOTE: Master/Visa credit card facilities are available for all payments but no discounts may be claimed if this method of payment is used.

---

**FOR ALL STUDENTS: THE IMPORTANCE OF THE PAYMENT DUE DATES**

If you do not take up one of the options mentioned above **by the payment due date** you will be regarded as a “no show” for residence purposes and your room will be allocated to a student on the waiting list. You will thus **lose your place in residence** and the University will have little chance of assisting you other than to suggest that you move into digs. If you have problems please contact us **before 18 January** as we will do whatever we can to assist you in retaining your place in residence but after that date there is little we can do.

**NOTES FOR ALL STUDENTS**

**1. Banking details**

Rhodes University Student Fees Account  
 First National Bank  
 Grahamstown branch:  
 Account number 62145504553  
 Branch code 210717  
 Please note: the deposit slip **MUST** show a reference number and this **MUST** be the student number.

**2. Penalty charge**

Dishonoured cheques and/or debit orders will attract a fee of R160 per transaction.

**3. Cash Deposit Limits**

Students are discouraged from making large cash deposits at the University Cashier. Cash deposits exceeding R5,000 must be made at the First National

Bank, Grahamstown (branch code 21 07 17), account number 6214 550 4553. Please ensure that the **student number (which is the only reference number)** is clearly visible on the deposit slip, which must be submitted to the Student Fees office, or faxed to (046) 603 7019/ Email: student-fees@ru.ac.za.

**4. Holders of recognised bursaries or scholarships including Rhodes University scholarships and merit awards**

may offset their bursary/scholarship against the liability for the registration fee required prior to registration, but you must inform the University that you are doing so before 18 January 2016.

**5. Fee remissions, concessions and special arrangements (full-time students only)**

Where a parent has more than one child attending the University at the same time, as full-time students, an **application may be made to the Director of Finance** in the year in which it applies **for a remission of 30%** of the normal tuition fees for each child after the first. The Council may also make any concession or special arrangement regarding the amount of fees paid by a student, or the payment of fees, at its discretion.

**6. Academic Merit Award Scheme (SA students only)**

Special merit awards are automatically made by the University to eligible students enrolling for the first time for an undergraduate degree. The awards, **ranging from R31 277 to Full tuition fee**, are based on the final National Senior Certificate examination results. Should the student withdraw from Rhodes University during the academic year, the merit award will be reduced on a pro rata basis. In order to qualify for one of these awards a student would have to obtain at least 47 admission points in the National Senior Certificate examination. **Please note that International Students are not eligible for merit awards.**

**7. Holders of recognised scholarships/bursaries/loans**

Fees due to the University are a first charge on any scholarship, bursary or loan granted by the University, or paid to the University from other sources, for a student. If the total amount paid exceeds the fees payable, the student may draw the balance on condition that the Bursar has given

written permission.

**Please note that it is the responsibility of the student to ensure that bursary donors make payments timeously and in accordance with the University regulations.** Students who hold full bursaries are reminded that they **will require funds on arrival at the University for the purchasing of books etc., as it is not University policy to make loans or advances against bursaries prior to the funds being received.**

**8. Oppidan fee (for clarity please refer <http://www.ru.ac.za/oppidan/faq/>)**

Note that there is an Oppidan fee of R155

**9. Caution**

Please ensure that payments made to the University are done only by Direct Deposits or Internet Transfers to the University bank account. Payments made by way of cheques made payable to “**Rhodes University**” marked “**Not transferable**” will attract a clearance charge of R160 and are strongly discouraged.

No responsibility is accepted for bank notes or other forms of remittances missing from letters addressed to the University or to members of the University using its address.

**10. External Loans**

Please note it is the responsibility of students negotiating loans with financial or other institutions to ensure that all payments are made to the University by the dates specified above.

The Registration Fee may **NOT** be reduced by virtue of a student having negotiated a loan with a financial or other institution.

Monies once paid into a student account will not be refunded unless all fees have been paid and a credit balance is reflected on the account irrespective of any bursaries held or meal refunds due to the student.

**11. Penalties for non-compliance**

The University will not issue certificates of any description to students whose fees are in arrears.

**12. Unpaid accounts**

Unpaid accounts where no prior agreed arrangement has been made and met are subject to an interest charge at the rate of 0.75% per month on amounts in arrears.

**13. Payments made to students**

Account refunds or payments to students will be made via Electronic Fund Transfer (EFT). Credit balance refunds will only be made upon receipt of a written application from the person/organisation responsible for paying the account, supported by a certified copy of the bank account details into which the funds are to be deposited.

**14. Notice of withdrawal – deregistration from Rhodes as well as withdrawing from residence**

All students, both postgraduate and undergraduate, or their parents or guardians must give notice of intention to discontinue attendance, in writing, to the Registrar. A separate letter requesting a refund of any monies due must be sent to the Director of Finance.

- Any student who has registered for a course of study and who, for any reason leaves during the year is liable for a pro-rata fee up to the date of cancellation for tuition and or residence fees, the basis of calculation will be on 249 days for the year.
- Any student who withdraws their application for tuition or residence, before registration will be liable for a cancellation fee of 10% if less than one month’s notice is given or 2.5% if longer.

**In terms of Section 17 of the CPA it states at;**

“(3) a service provider may charge a reasonable fee for cancellation.

(4) regard must be had to the nature of the service, the length of notice to cancellation, the reasonable potential to find an alternative consumer (in our case this would be a student) and the general practice of the relevant industry (in our case, other universities)”

**TUITION FEES**

**Block fees**

The regulations of the various faculties prescribe the number of courses full-time students are normally expected to take in each year of their curriculum.

Unless otherwise stated, the annual block fees include tuition fees for classes and laboratories, fees for ordinary University examinations and library fees for the normal number of courses. Full-time students taking fewer than the normal number of courses in any given year, will still be liable for the full block fee.

**OTHER FEE CONSIDERATIONS**

**Additional courses**

Subject to the regulations of the various Faculties, **undergraduate** students may take in any year one course more than the normal number prescribed for that year of their curriculum without extra charge.

**Full-time postgraduate** students may take in any year one undergraduate course free of charge, provided that they have obtained the prior approval of their head of department and of the Dean of the Faculty, and provided also that a postgraduate student in Law may take first year courses in any one language subject in any year without extra charge. The undergraduate course becomes payable separately once deregistered from full-time course.

**Single course fees**

Students doing one course towards their degree must be registered as full-time, but will be charged the single course fee.

**Departmental and additional charges**

These are for course materials, handouts, field trips, printing vouchers, etc. and are additional charges to

the student fee account. These charges vary as they depend on the courses taken and options chosen in each year of study.

**Societies: Charges to student accounts**

These refer to subscriptions to societies to be charged to student accounts. No further subscriptions will be charged after **31 March** of each academic year.

**Meals for Oppidans (Students who live off-campus)**

Meal options available are breakfast, lunch and supper on weekdays and weekends. The costs vary:

Breakfast	R11.00
Lunch	R29.60
Supper	R29.60

**EXAMINATION FEES**

Must be paid at the start of each semester for ordinary examinations written by students returning to write on extended DP certificates.

Students who fail to provide acceptable identification at examinations will be fined R250 per exam session.

Failure to return room key at the end of 2nd and 4th terms		175
Loss of cupboard key		97
Additional length bed		346

RESIDENCE FEES – ADDITIONAL INFORMATION

- (a) Residence fees differ because some residences have better facilities and/or are desirably located.
- (b) Students' accommodation is based on single rooms. Adjustments are made in fees where students change residences. All residence fees are levied at the full rate for a single room in the appropriate residence at the beginning of the year. Where, for University convenience, students are permitted to share accommodation a 25% discount of the lodging fees may be claimed by the student for the period that the room was shared and per term. **Application for the rebate must be made to the Administrative Assistant: Student Accommodation in the Residential Operations Division at the end of each term. Claims for rebate which have not been lodged by the end of the following term will be disallowed.** For the purpose of discounts
- and adjustments the residence year is taken as 249 days (PG Residences 340 days). A student does not have the right to claim an allowance for sharing a room where single accommodation in the residence is available.
- (c) No charge is made for linen supplied or for laundry services. Students must provide their own towels and toilet soap.
- (d) No deduction is made from residence fees if a student is away from residence because of illness, or for any other reason, other than where the prescribed course of study required such absence. (certificates to this effect must be obtained from the relevant academic Head of Department and submitted to the Residential Operations Division).
- (e) Unbooked meals will be refunded to students' fee accounts at the end of each semester. Refunds will be limited to a maximum of **R1,670.00** per semester for those in undergraduate residences and **R2,370.00** per semester for those in postgraduate residences.

- (f) Accommodation for students in undergraduate residences is available for a specific fee during the April vacation periods. No vacation accommodation is offered during the mid-year recess or the December/January period.
  - (g) Students who have withdrawn from residence must vacate their rooms within 24 hours of having given such notification to the University.
- 4. The fee is refundable if re-examination changes the classification of the result to the student's advantage.
  - 5. These fees apply to students not taking a degree, diploma or certificate, or students taking a degree, diploma or certificate with additional art or craft work courses.
  - 6. Degree certificates are handed to candidates when they graduate, or posted as soon as possible after the graduation ceremony to those graduating *in absentia*. Other certificates are posted to candidates as soon as possible after the results are issued. A duplicate certificate is issued on production of an affidavit or the damaged original certificate. An amended degree parchment: issued as a result of student error or negligence in providing information such as the spelling of names, etc.

**Residence fee remissions**

Applications for residence fee remissions must be made to the Deputy Director: Residential Operations. Residence fee remissions will only be considered in cases of family emergencies (e.g.: immediate family bereavement, illness of student, etc.).

**NOTES**

- 1. Candidates for Honours degrees may attend an introductory language course without extra charge.
- 2. (i) Registration and tuition fees must be paid even if candidates in a particular year make no call on their supervisor's time.  
(ii) The minimum period of study for a Master's degree is two years after a Bachelors degree (if permitted) or one year after an Honours degree.  
(iii) The minimum period of study for a PhD degree is three years after an Honours degree or two years after a Master's degree.  
(iv) A pro-rata fee will be applied upon registration of Masters and PhD students
- 3. Laboratory credits to printing accounts and photocopying credits will be charged against student accounts on completion, by the student, of a voucher. The charges will be in multiples of R50 and R100.
- 7. An invigilation fee per paper may also be payable.
- 8. Undergraduate students registering for the second semester will be charged 50% of the annual fee.
- 9. IT consumables such as USB flash sticks and external hard drives etc are available from the IT Shop. Please see <https://www.ru.ac.za/informationtechnology/itshop/> for pricing and more information.
- 10. Applies when connecting to the Student Network from one of the private flat complexes in town where such access is available. See <http://www.ru.ac.za/studnet> for details.
