

Objective – Carousel

- > Used to give life and enhance the site's look and feel.
- > To advertise the Department or Faculty related events or any other promotions.
- > Carousel can also be used to bring attention to content that is not obviously visible on your page.

Please note that the Carousel takes 4 images, and since it is auto scrolling all the slots should be filled.

How To-Add a Carousel

1. Go to the parent folder, (**usually this is the folder with the site name**)
2. Select **"Create Content"** from the dropdown menu. (**See Fig: 1**)
3. Select content template called **"2019v6 Homepage Carousel (News Stories)"**-For carousel with text overlay (**See Fig: 2**)
 - a. A pop-up like the one on **figure 3** comes up
 - b. Add A **Name**, **Slide # Line 1/Slide # Line 2** (for each image), **Text** for the overlay and the **Image*** (Where **"#"** is the slide number) (**Optional, i.e. can be left blank**)
 - c. You can also add **Slide # Paragraph**. (**Optional, i.e. can be left blank**)
 - d. Add a section or content link to the **Slide # ink**, this will link to related content. (**Optional, i.e. can be left blank**)
4. Do the above steps for all the 4 images, then click **"Save changes and Approve"**.
